## **DETAILED ACTION**

#### Amendment

1. Receipt is acknowledged of the amendment filed on March 3, 2004. In the amendment claims 1-3, 5, and 6 were amended. Currently, claims 1-8 remain for examination.

# Claim Rejections - 35 USC § 103

- 2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 3. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).
- 4. Claims 1-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lee (US 6,226,057, "Lee" hereinafter).

Application/Control Number: 10/064,049

Art Unit: 2876

Page 3

Lee teaches a liquid crystal display comprising a plurality of source bus lines and gate bus lines and a plurality of thin film transistors (see abstract; see figure 2A, 2B). As shown in figure 2A, pixel electrodes and gate line are overlapped (col. 6, lines 31-38). It is also suggested that overlapping area can be made differently to compensate for the difference in capacitance.

Although Lee does not explicitly suggest that the area becomes larger as pixels are further away from the signal line, Lee indicates that the overlapping area can be adjusted as desired. Size of the overlapping area is considered result effective variables. One ordinary skill in the art would contemplate adjusting the size of the overlapping area to provide desired effects.

## Conclusion

I. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Hebiguchi et al. (US 6,707,441); Hara et al. (US 6,046,790); Watanabe et al. (US 6,020,214); Ukita (US 6,310,668); Kawahata (US 6,507,375) disclose LCD-TFT devices. Applicant is respectfully suggested to carefully review these references.

II. Any inquiry concerning this communication or earlier communications from the examiner should be directed to *Ahshik Kim* whose telephone number is (571)272-2393. The examiner can normally be reached between the hours of 6:00AM to 3:00PM Monday thru Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael G. Lee, can be reached on (571)272-2398. The fax number directly to the Examiner is (571)273-2393. The fax phone number for this Group is (703)872-9306.

Communications via Internet e-mail regarding this application, other than those under 35 U.S.C. 132 or which otherwise require a signature, may be used by the applicant and should be addressed to [ahshik.kim@uspto.gov].

All Internet e-mail communications will be made of record in the application file. PTO employees do not engage in Internet communications where there exists a possibility that sensitive information could be identified or exchanged unless the record includes a properly signed express waiver of the confidentiality requirements of 35 U.S.C. 122. This is more clearly set forth in the Interim Internet Usage Policy published in the Official Gazette of the Patent and Trademark on February 25, 1997 at 1195 OG 89.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-0956.
